Welcome to KCAA Radio

KCAA is licensed to Loma Linda, California. It's the local news/talk station and regional affiliate for NBC News, CNBC Business News and NBC Sports News. This unusual triple affiliation reflects the broad diversity and range of the station's format. The station is enjoying its 22nd year as a successful, independently owned AM-FM news-talk station serving the Inland Empire region of Southern California.

KCAA's daytime signal on 1050 AM reaches over 5 million people. The combined reach of the two FM's on 102.3 FM and 106.5 FM provide listeners with three listening options.

KCAA's Internet system has listeners in 201 countries. The station's massive podcast archive dates back to 2004 with over 400 shows in active status. The system delivers over 300,000 hours of podcast downloads each month. The station's primary website is www.kcaaradio.com and the station's mobile website is www.kcaaexpress.com. It might be said that **"THE SUN NEVER SETS ON KCAA"**

KCAA has earned the reputation as the GO-TO radio station for local programming. The staff produces and distributes more than 50 local and regional talk and music programs each week on subjects ranging from business and entertainment to liberal, conservative and religious talk, to vegan diets, organic farming, Bitcoins and marijuana legalization. KCAA also airs the best of talk radio including Dave Ramsey, Del Walmsley, Gary Garver, Phil Grande, Stephanie Miller, The Sports Circus, Ray Lucia, Richard C. Hoagland, Heather Wade, The Twilight Zone and the House of Mystery

The station is currently broadcasting on 1050 AM, 106.5 FM and 102.3 FM from its new media center in Redlands, California. Listeners can enjoy KCAA's excellent line up of programs on all three frequencies. Recently, the station upgraded all broadband connections to fiber optics and added new audio delivery systems to all three transmitters, specifically adding AAC encoding which produces perfect FM Radio and near FM quality audio on AM receivers. The station uses refurbished analog Optimod audio processing and Orban's legendary stereo synthesizers along with the Aphex aural exciter and "Big Bottom" to produce a sound that is second to none. KCAA's AM and FM signals exhibit more "dial presence" and audio frequency response than competing stations with similar and higher power. Listeners notice the richer and fuller sound of KCAA.
